Dive Safari

In Bali, you can dive in and around the famous USAT Liberty wreck dating back to the Second World War 1941-1942 (Tulamben). On a drop off, on white sand (Menjangan), across small islands (Gilis : Biaha, Mimpang and Tepekong), in 'washing machine' currents or in a peaceful bays, on coral gardens (Blue Lagoon) or drift dive sites to see the most famous pelagic of Bali Mola Mola (or sunfish in Nusa Penida).

To sums it all up

if you are a beginner or an advanced diver, fan of macro or admirer of the pelagic, lover of the underwater world, photographer or those who prefer muck dives, everything you wish for is here in BALI.

SANUR SUNRISE

Sanur is an ideal place to stay for families and travelers who are looking to stay away from the more upbeat and crowded areas, such as Kuta and Seminyak. However, there is still plenty to do, and Sanur is lively and offers everything a traveler desires. The nightlife is more relaxed while there are plenty of bars that feature live bands. The northern part of Sanur also functions as a harbor for speed boats departing daily to Lombok and the Nusa Islands. Many great local warungs can be found while fancier restaurants are mostly attached to front beach resorts. Many foreigners chose Sanur as their stays for many good reasons. And you need to know that Sanur is best place to enjoy the beautiful sunrise!

DAY 1 TULAMBEN 3X SHORE DIVES

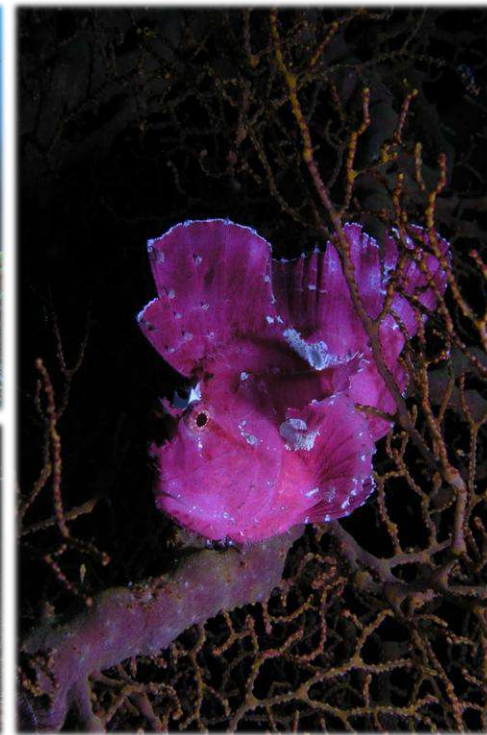

You will discover the most famous dive site of Asia, the shipwreck of the USAT Liberty 1942 measuring 120 meters long. The ship used to be an US cargo ship used during the second world war II. After being torpedoed the ship ended up on the beach of Tulamben where it remained until 1963. After the tremors of the Mt. Agung, the ship ended up in the ocean where it remained until this day. The ship wreck rests at a depth of 10- to 30m and is a truly impressive sight.

In the afternoon you will discover The Drop-off, another spot known for its fauna. This wall is covered by a great number of corals, gorgonians, and sponges. The topography of the site is incredible thanks to its sheer underwater cliffs, where you can encounter “cleaning stations”,as well as a multitude of enormous, vibrantly colored sponges and gorgonians. The dive continues to an undulating plateau of coral where you can find morays, mantis shrimp, and varieties of pipefish hiding in the crevices.

You will also make a night dive on Liberty Shipwreck! It will become one of your best night dive in life! You will find the giant grouper and the giant moray eel hunting for the small fish together with night divers.

DAY 2 AMED 3X BOAT DIVES

The driver will pick you up in the morning at the lobby and drive for about 30 minutes toward Amed. You will then explore the site we call Pyramides. This site is one of the most successful artificial reef created by local divers in the past. Offers dazzling of marine life, the pyramids shapes made by concrete blocks covered with full of hard – soft corals make this site a home sweet home of small fish where it attracts the bigger fish! And The Jemeluk wall is a nice Drop-off up to about 30 to 50 meters depth offers stunning wall! The boat dives using a traditional wooden fishing boat. Shore to dive sites about less than 5 minutes.

Lunch in between the dives. In the afternoon when all has been done, we will take you to your hotel for the night in Amed.

NIGHT IN: Puri Wirata Amed

DAY 3 LIPAH BAY 2X DIVES

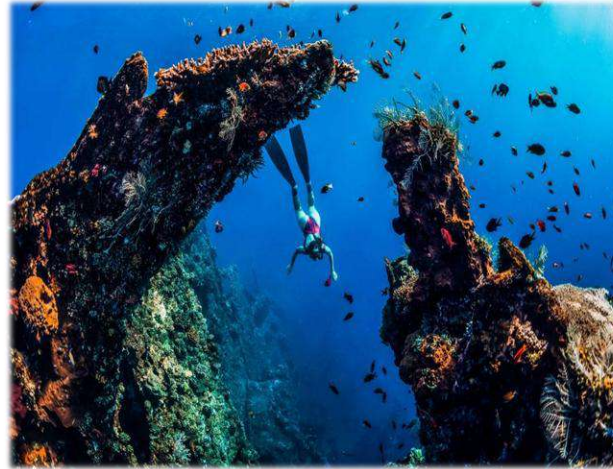

The driver will pick you up in the morning at the lobby and drive for about 30 minutes further east, exactly right on the east tip of Bali island. Not many divers come to this area due to its distance especially from the city of Denpasar.

The pristine reef of Gili Selang where it is good habitat for the white tip shark and a lot of different types of tropical fish and if you are lucky you might see the hammerhead shark!

The boat ride is about 10 minutes with local boat. Back to the shore after the 1st dive, then you will explore the Japanese shipwreck after your surface interval. Nice easy shore dive and it is quiet shallow where it makes the color of the corals more bright and beautiful!

NIGHT IN: DIVERS CAFÉ AMED

DAY 4 PADANG BAY 2X BOAT DIVES

Our team will come to pick you up at your hotel and driving for about 1 hour to Padang Bay. Then you will board on a diving boat (boat ride to dive sites around 10 minutes) and make your way to the dive sites we call Jepun and Blue lagoon.

After the 2x boat dives, you will come back to the shore for lunch at the beach restaurant where you can have the shower too in this place.

The small village that offers amazing attractions for most of the divers in Bali. White sand with full of critters you can photograph such as Pegasus seamount, sea horse, stingrays, shrimps and many different type of crabs and frogfish! You will see a small shipwreck too here at about 20m / 60 ft deep. The boat rides is only about 10 minutes. Padang bay is one of the most favorite underwater photographer.

NIGHT IN: SANUR LODGE

DAY 5 NUSA PENIDA 3X BOAT DIVES

Nusa Penida is also home to over 500 species of reef fish, corals, and pelagic creatures including Manta Rays, thresher sharks, eagle rays, and even Dolphins! Cold thermoclines rising from the deep ranging from 17-20 °C/62-68°F. Preserve the coral reef by clearing away particles that might obstruct sunlight and bring nutrients to nourish the reef, and also a good chance to see the iconic creature in the area Oceanic Sunfish – Mola-mola.

We will pick you up as usual after your breakfast at 8 and drive you for about 5 minutes to Sanur beach where the boat is ready.

Get on to the boat and your Dive Master will help you to make sure everything is ready for the diving onboard.

3 dives at Nusa Penida/ Lembongan, transported by our speed boat 250 HP x2 outboard engine. It will take about 40 minutes to cross to the island.

The dives sites are include Manta point, crystal bay and another drift dive in the northern part of Penida.

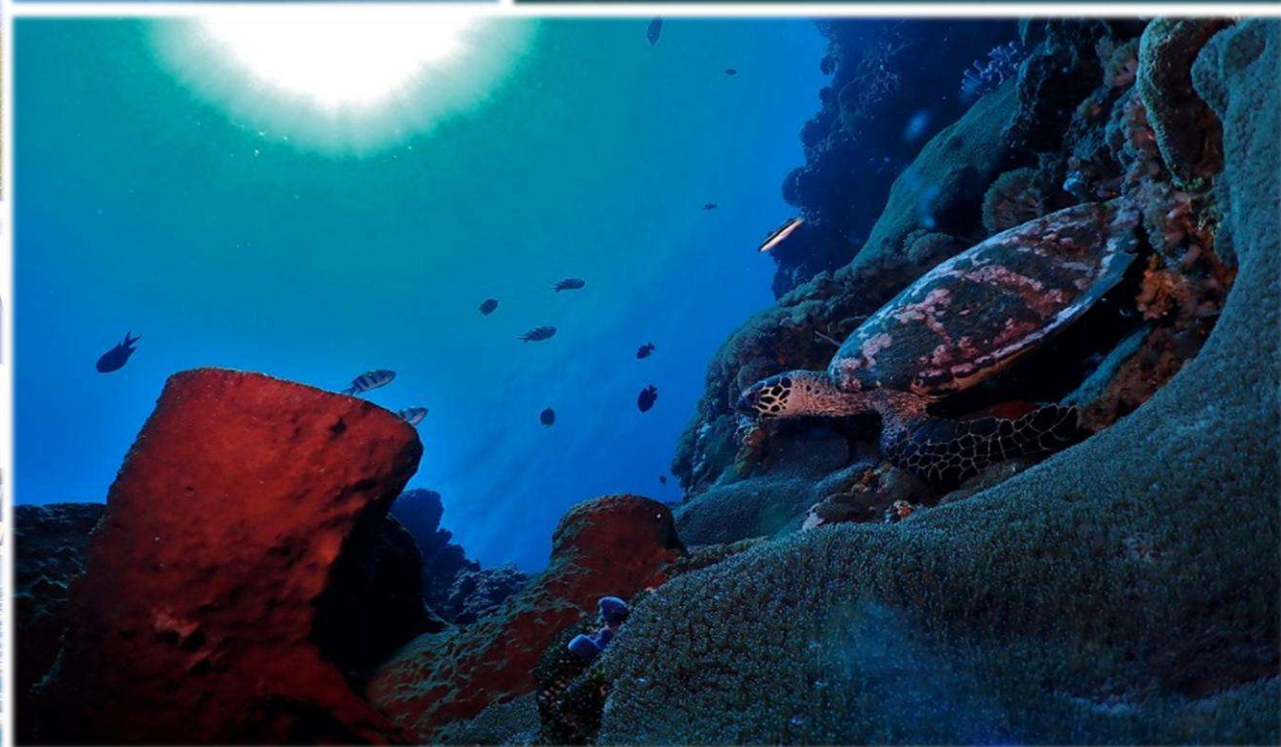

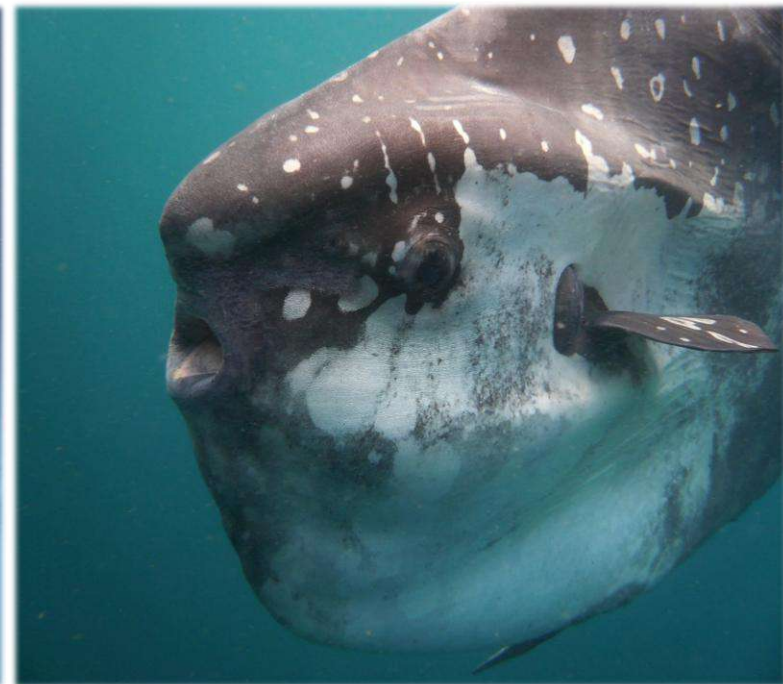

Lunch, snacks and drinks will be served in between the dives.

You will be back to your hotel at around 4 pm.
